

Hi folks,

While I am continuously working on new material every week, I've been taking some time recently to reflect on where I have been...

This year (2022) I celebrate my 75th trip around the sun and my 60th year in the music business. It's a very big year for me, one in which I've been recording a 'Duets' album with some amazing artists I have worked with over my years in the biz, that's due to be released in 2023.

I've also been putting the finishing touches on my auto biography. All this reflecting got me thinking that I should be creating a collection (and celebration) of some of my favourite songs, plus some live versions. So, disc 1 - "Hot" is a bunch of rockers, disc 2 - "Chill" is a bit more chill for those mellower moments and disc 3 "Live", are some of my favourite recorded performances.

Over time after live shows and chatting to people at my merch stand, I've been asked many times, "What are your favourite songs?" Well...here they are, recorded in different years, different spaces, different countries from 1973 to 1981 and remastered in 2022.

I had so much fun during the remastering with Nick O'Donnell (my producer) as we worked on the chosen tracks, bringing fresh fidelity and life with a new appreciation for all of the songs.

I'm sure you will enjoy them as much as Nick and I have during the process.

Thank you for your ongoing support, its people like you who keep me doing what I love.

Cheers,

Kevin
